Community Partners; attached is the Central Patrol Division Crime Report for 03-25-10.

Daily, I receive questions on when and to what number to call police to report suspicious activity. The answer is, immediately call 911. Please do not wait for a monthly neighborhood meeting to pass on the information. Timely information is critical to the prevention of crimes as well as addressing long term crime and quality of life issues.

Suspicious Activity

If you see something suspicious don't wait to report it to the police, call immediately. Don't wait until a crime has been committed or potential criminals have a chance to get away,
"**CALL 9-1-1 RIGHT AWAY".**

The following are just a few examples of when you should call the police.

● A non-resident walking between houses, a possible burglary in progress.

● Someone loitering in front of a home, business or school, who could possibly be casing for a burglary or robbery.

● Someone looking into residences or cars, could be a possible prowler.

● An occupied vehicle parked in the area, possible prowlers casing, or a stolen auto.

● A vehicle repeatedly driving through the area, or driving without headlamps.

● Someone knocking on your door and asking for directions, or looking for someone you have never heard of. This could be a burglar attempting to see if a residence is occupied.

Master Patrol Officer James Schriever, CIO, Central Patrol Division, Office 816-759-6313, Cell 816-719-8350
